

iBioShield™ Case for iPad

For the iPad 10.2", the iPad air 3 (2019)
and the iPad Pro 10.5"

Resistant to chemicals:

Water resistant, and with chemical resistant materials, the iPad 10X Case can be cleaned repeatedly with the harshest cleaning chemicals (3000 ppm Bleach).

Works with surgical gloves:

The glass screen allows smooth, sensitive iPad control even when wearing surgical gloves in clinical environments.

Charge & Sync:

With new 8-Pin technology added to our cases, you are able to charge your devices without taking them out. They can be placed in charging bank units easily to sync simultaneously.

Branding:

All our cases can be branded and customised to your personal preference and fitted with an RFID tag.

Case for iPad

iBioShield™

| | |
|-------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Dimensions: | 11.2" (L) x 7.8" (W) x 0.75" (D) / 285mm x 200mm x 19mm |
| Weight: | Under 21oz / 600g without an iPad.® |
| Materials: | Made with FDA approved materials, all external materials are chemically resistant and can be disinfected with high concentration bleach. |
| Armoured Glass screen: | Our glass offers ultra-sensitive touch display, working with surgical gloves and the Apple Pencil. The glass is tough and scratch resistant, adding that extra protection for your device. |
| Water Resistant: | Water resistant, the iPad 10X case can sustain being cleaned by sprays and wipes without risk of liquids damaging the iPad 10X's content. |
| Scratch Resistant: | Our armoured glass has up to 2x better damage resistance than competitor glass and many times more resistance than competitor plastic screens to daily scratches and accidental damage from keys or equipment. Screen remains brilliantly clear long after plastic screens mark and fade leaving iPad screen obscured and unusable. |
| Screen Sensitivity: | Screen sensitivity remains high, even when used with surgical gloves |
| Secure Kensington Lock: | Lock your iPad 10X case to an immovable object with the integrated 316 Stainless Steel Kensington lock. Fits all standard Kensington Branded locks. |
| Connectivity: | No loss of 4G, Wi-Fi or Bluetooth connectivity |
| 8-Pin Charging: | 8-Pin lightning port replicator allows for simple, safe bank charging with Ground Control compatibility |
| Camera Lens: | Our glass lens maintains brilliant, clear, unobscured vision from both front and rear cameras. |
